

Databricks project

Loan dataset

We have dataset based on that we have to do analysis in databricks and create some meaningful insight from it

1. Gender category distribution of taking loan
2. Top occupation taking loan
3. Top loan category on which loan taken
4. Which marital status category people taking loan

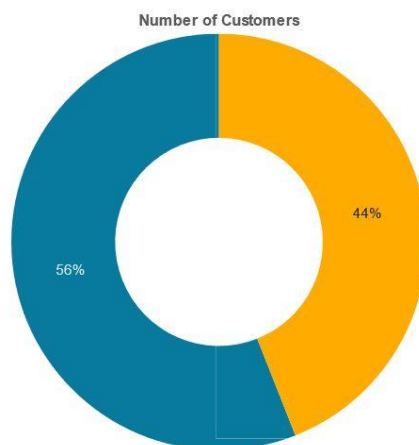

New charts: ON ▾

Loan_Category

- GOLD LOAN
- HOUSING
- AUTOMOBILE
- COMPUTER SOFTWARES
- TRAVELLING

New charts: ON ▾

Gender

- MALE
- FEMALE
